SUMMARY

Data and program professional with 3+ years at PricewaterhouseCoopers turning complex business data into decisions — building forecasting models, executive dashboards, and internal controls across enterprise accounts valued at \$700K–\$1.5M. Advanced in SQL, Python, Tableau, and Power BI, with a track record of redesigning workflows (cut reporting cycle time 15%), leading cross-functional teams, and maintaining a 100% PCAOB inspection pass rate — translating findings into decisions for senior stakeholders.

EXPERIENCE

Data Assurance and Transparency, Senior Associate

Dec 2025 – Present

PricewaterhouseCoopers LLP | San Jose, CA

- Led 3 cross-functional teams totaling 15 staff, coordinating delivery across \$700K–\$1.5M client accounts while maintaining a 100% PCAOB inspection pass rate.
- Built internal tracking tools, process monitors, and automated dashboards adopted across team workflows, improving visibility into engagement health across 3 concurrent teams.
- Developed engagement budget plans, cost-revenue analyses, and forecasting models for each cycle, identifying efficiencies that drove 10–15% margin improvements.
- Pitched tailored engagement options and budget plans to 3 client stakeholders, closing 2 of 3 opportunities and winning ~\$1M in future work — a 67% close rate.

Data Assurance and Transparency, Associate

Sep 2023 – Dec 2025

PricewaterhouseCoopers LLP | San Jose, CA

- Designed and implemented internal controls across multiple industries, identifying and remediating compliance gaps that achieved a 100% pass rate across all PCAOB inspections and internal reviews.
- Conducted executive-level briefings with senior client stakeholders, translating complex data findings into actionable recommendations that directly informed high-stakes financial decisions.
- Reduced reporting cycle time by 15% by redesigning financial/data workflows and deploying analytics tooling (Tableau, Power BI), improving accuracy and delivery speed across active engagements.
- Managed a portfolio of 3–4 enterprise accounts valued at \$700K–\$1.5M each, retaining 100% of accounts year-over-year through strategic initiatives in budgeting, forecasting, segmentation, and analytics.

Data Assurance and Transparency, Intern

Jun 2022 – Aug 2022

PricewaterhouseCoopers LLP | San Jose, CA

- Built and presented a data-driven strategic framework for a primary client; client adopted the full proposed plan as their operational blueprint going forward.
- Audited and documented 20+ control changes, delivering structured findings and strategic recommendations directly to client stakeholders.
